

General Exercise Instructions

- Cooperation is allowed. Report (and the answer texts) are to be done individually
- Try to write down all *important* steps and reasonings you used for your answer
- If you use figures, add labels and a legend to it and explain what is shown
- You can use any tool you like for creating the report and figures, e.g. latex/matlab/python/word/excel etc.
- If you have any trouble with an exercise, ask in the exercise session or by email to the course assistant

Submission Instructions

- Return the answers in a single pdf file. Don't scan handwritten text/figures but make everything on the computer.
- Make sure to write your name, your student number and the exercise number in the pdf file
- Upload the answers to MyCourses
- See MyCourses for the submission deadlines
